NO LEAGUE FOR COLORADO  
ROOSEVELT AND MUSSOLINI  
PEGGY DUNCAN, THE ATOM  
RUBBER FROM PETROLEUM

GEORGE H. SHAW ran against Mr. Hodges for the Republican senatorial nomination in Colorado. Shaw made his objection to the League of Nations, the international bank and the league court his chief issues, and won.

Mr. Hodges learned that official thinking done in Washington is not always the thinking that is done outside of Washington.

YESTERDAY, Governor Roosevelt of New York state came out in favor of repealing the prohibition amendment.

This means that the Democratic government and party of New York goes wet, hook, line and sinker. What is more serious for the dries is that it probably will mean refusal of New York state authorities to co-operate in the suppression of bootleggers.

There will be, presumably, the usual co-operation with bootlegging, based in each case on a substantial consideration, but that is limited to the underworld and the sub-tratum of officialdom.

Mussolini is displeased about something, and Grandi, his representative at the League of Nations at Geneva, leaves suddenly, with no explanation, just as France is developing her plan for a "United States of Europe."

The difference between Mussolini and other European statesmen is that they talk and he acts. The League is much puzzled.

PEGGY DUNCAN, a powerful 19 year old girl from South Africa has conquered the English channel making the swim in 16 hours 15 minutes, but failing to beat Gertrude Ederle's record.

Miss Ederle can tell the young girl from South Africa that swimming the channel does not pay. You lose your hearing in the cold water and the world soon loses its recollection of you.

THE STRONG GIRL from South Africa is an interesting product of that group of white people transplanted on a dark continent. At 15 she ran away from a convent school to enter a swimming race from Robben Island to Cape Town. Twelve started, six of them men.

She alone finished, undisturbed by a man-eating shark that had to be harpooned.

YOU WILL BE disappointed to hear about the proton, or "nucleus," the little central "sun" residing inside the atom, with electrons revolving around it.

Dr. Rirac, a physicist of Cambridge, only 30 years old, startled scientists with the statement that nothing in the universe is of any great consequence except the election.

The proton, around which the

# REPUBLICANS PLAN PROHIBITION FIGHT

## Wet Candidates Win Victories In Primaries

### OPPOSITION TO DRY LAW GIVEN MUCH SUPPORT

Backers of Prohibition Also Win Victories In Returns

### ANTI-SALOON LOSES IN MICHIGAN VOTE

Drys Finish On Top In New Hampshire; Two Win Washington

(By Associated Press)

WASHINGTON, Sept. 11.—New ferment was poured into the cauldron of prohibition debate by the results of primaries in ten states during the past three days.

Although a number of wet office seekers met defeat some dry champions were overthrown and a few candidates opposed by the prohibition forces were victorious.

The anti-prohibition cause received support yesterday also from Governor Roosevelt of New York, who, after a two-year silence on the question, placed himself on record as favoring repeal of the eighteenth amendment with substitution of a statute granting each state control of intoxicants.

Prominent among the dry losers was Representative Grant M. Hudson of Michigan, a former Anti-Saloon league official, in whose contest the prohibition issue was outstanding. Representative Louis C. Cramton, another Republican dry of that state was in doubt of renomination, with an official count needed to settle the result of a close race.

Representative John F. Miller of Washington, also was a loser for Republican renomination, going down before the wet attack of Ralph H. Horr, Miller's district is Seattle, however, and Horr is Republican county chairman. In the state of Washington also, dries can point to the victory of two dry incumbents over wet opposition, and the return unopposed of two more dries. All this in the face of wet planks in the state platforms of both parties.

Dry victories occurred in Republican rings in New Hampshire and Vermont, but in most cases the wet opponents were third men in the races. Democrats of the two states will have the wet flag in the November elections, making a bid for normally lacking popular support for their party.

Colorado's Republican senatorial primary yielded a victory for the only candidate not endorsed by the Anti-Saloon league, George H. Shaw. He did not campaign as a wet, however.

Senator James Couzens won the Republican renomination in Michigan against the opposition of Chase S. Osborn, who had the tacit support of the Anti-Saloon league. Couzens favors law observance but is not in sympathy with prohibition, and the wet-dry issue was not a leading one.

## CHURCH TO HOLD FOUNDING EVENT

### Hanoverton Congregation Will Celebrate 100th Anniversary Sunday

On Sunday, Sept. 14, Hanoverton Presbyterian church will celebrate the 100th anniversary of its founding.

The church was founded in 1830 by Rev. James Robertson, pioneer pastor in this part of Ohio. Although there had been services of the Presbyterian faith in Hanoverton prior to that time it was not until 1830 that a church was organized.

The services of the day will be as follows: Sunday school 9:00; morning worship, baptism, reception of members, Centennial Communion, at 10:30; fellowship meeting at 2; and evening worship at 7:30. Rev. M. G. Hanna, moderator of Mahoning presbytery, will preach the centennial sermon. In the afternoon the meeting will take on a "reminiscent aspect" and former ministers and old members will speak. One of the former pastors will preach in the evening.

Special music will feature the program all day. A string quartet will play, a male quartet will sing and there will be vocal numbers. The Calvary chorus of Canton, Ohio, will appear in the afternoon.

R. W. Morrison, above, wealthy railroad magnate, seeks to recover \$75,000 court costs and interest in suit being contested at San Antonio, Texas. Morrison was kidnapped last May and under threat of death deposited \$75,000 in a local bank to the credit of his kidnapers.

## FOREIGN LEAGUE PLAN DESCRIBED TO FAVOR PEACE

### French Minister Speaks On Union; Not Opposed To America

GENEVA, Sept. 11.—Stressing with graphic simplicity the almost insurmountable difficulties encountered by the London naval parity in an effort to secure world peace, Aristide Briand ably laid before the League of Nations today his plan for a United States of Europe.

The French foreign minister, refraining in the main from waxing melodramatic by resorting to a moderately toned speech, completely surprised his audience by studiously avoiding an expected anti-British tenor.

Eloquently and effectively, Briand stood on the rostrum before the distinguished assembly representing 51 nations and expounded to them with all the sincerity he could muster into his voice the pressing need for a federated Europe. He denied emphatically that his project was in any manner aimed as a retaliatory measure against the United States of America, because I have too much respect for that great country.

## HIGHWAY CRASH CAUSES DEATH

Raymond Frick Dies In Hospital Following Accident Occurring On Canton-Alliance Road

ALLIANCE, Sept. 11.—Raymond Frick, 25, died in city hospital here early today from a fractured skull and internal injuries sustained when his car overturned on the Canton-Alliance road after striking a milk truck.

Frick was driving in the same direction as the truck and police have been unable to learn the complete circumstances of the mishap. Frick was pinned beneath his car when it overturned.

## PROPOSES LAW TO SAFEGUARD CITY EXPANSION

Ohio Municipal League To Support Legislation On Annexation

### FAVOR EXTENSION FOR THREE MILES

Statute Revision Places Authority With Board Of Commissioners

CANTON, Sept. 11.—Corrective legislation to remove some portion of the obstruction to annexation of adjacent communities by Ohio cities probably will be urged upon the next general assembly by the revised Ohio Municipal league. This organization includes in its membership city executives, mayors, city managers, city solicitors and others interested in an exchange of ideas for progressive municipal government. It is sponsored by the political science department of Ohio State university.

Under existing Ohio statutes it is possible for small communities, benefitting from the facilities of a nearby city, to thwart annexation by incorporation into the status of village. Russell H. Mack, city solicitor of Canton and a member of the legislative committee of the Ohio Municipal league, has proposed for that organization's consideration, an adjustment of the statutes which will channel the questions of annexation or incorporation solely through county commissioners of each county.

### Handicaps City's Growth

Under existing laws any small community may cut its neighboring city off from growth by the process of incorporation by either of two methods, one by election after petitioning township trustees and the other by consent of county commissioners. Mr. Mack now proposes in a letter to Allen C. McDonald, mayor of Dayton and chairman of the league's legislative committee.

## 2,453 LISTED IN COUNTY SCHOOLS

### Enrollment Figures For Rural Districts Given By H. C. Leonard

LISBON, Sept. 11.—Early enrollment in seven village and rural schools under the direction of County Superintendent of Schools H. C. Leonard shows 2,453 children registered.

On account of 75 children being registered at the Fairview school in Yellow Creek township, the four upper grades taught in this one room school have been transferred to the Ninth street school at Wells-ville.

Enrollment in the nine month schools has been announced as follows: New Waterford, high school 82, grade schools 201; Fairfield Centralized, high school 99, grade schools 335; Columbiana high school 171, grade schools 407; Summitville 75; Salineville, high school 175; grade schools 343; Middleton township—Achor building 31; Haysville 16; Sixteen 30; Oak Grove 33; Glendale 23; Clarkson 29; Rogers 44; Carmel 19.

Yellow Creek township, Flats 26; Coal Hollow 27; Yellow Creek 17; New Salisbury 60; Sixteen 45; Fairview 75.

Eight month rural schools will not open until Sept. 22, the week following the county fair. The enrollment in many of these rural schools shows a increase over the registration of a year ago.

## TWO INJURED IN AUTO ACCIDENT

Washingtonville High Students In Mishap As Car Crashes Into Tree; One In Hospital

Earl Stoffer and Keith DeJare, Washingtonville high school students, were injured in an automobile accident about 9 p. m. Wednesday at the bridge just north of Washingtonville, when the automobile driven by DeJare hit a bump on the bridge, skidded off the road, and crashed into a tree.

Stoffer sustained lacerations about the head and face and was cut on the hands.

He is in Salem City hospital, where he was taken after the accident.

DeJare escaped with minor hurts. Stoffer's condition is not serious.

## CORN YIELD FOR 1930 LESS THAN CROP LAST YEAR

Conditions Below Normal According To Report From U. S. Bureau

### WHEAT PRODUCTION BELIEVED GREATER

General Estimates For Season Vary; Barley Shows Increase

(By United Press)

WASHINGTON, Sept. 11.—The 1930 corn crop was estimated at 1,582,765,000 bushels in a general crop report as of Sept. 1, issued by the agriculture department today.

This compares with a yield of 2,614,000,000 bushels last year and a five-year average of 2,700,000,000 bushels. The conditions were reported 51.6 per cent of normal compared with a ten-year average of 77.7 per cent.

Total wheat production was estimated at 837,761,000 bushels, compared with a yield of 806,000,000 bushels last year and a five-year average of 883,000,000 bushels.

The production of durum wheat was forecast at 50,950,000 bushels on the basis of 69.8 per cent of normal as against 52,000,000 bushels last year.

### Spring Wheat Higher

Production of other spring wheat was forecast at 189,419,000 bushels on a basis of 63.1 per cent of normal with 176,000,000 bushels in 1929.

Winter wheat yield was forecast at 367,000,000 bushels.

The 1929 production was 578,000,000 bushels.

The 1929 production was 578,000,000 bushels.

Barley production was forecast at 323,000,000 bushels on a basis of 74.7 per cent of normal. The 1929 production was 304,000,000 bushels.

## PRESIDENT WILL REMAIN OUT OF STATE DEBATES

### Hoover Determined Not To Be Involved In Controversy

(By United Press)

WASHINGTON, Sept. 11.—President Hoover is determined to keep clear of the Republican controversy over Prohibition in Ohio and New York, it was learned today at the White House.

The Ohio Republican convention at Columbus today and the New York convention September 28 will hear no word, public or private, from the president regarding the issue which is causing party differences in those two states, it was said.

Politicians on either side of the question who intend to attend either of the conventions will not be welcomed on this subject at the White House, it was learned. None will be authorized to speak for the president.

This stand was assumed by Mr. Hoover following these developments.

1.—Announcement by Republican National Committeeman Maurice Maschke of Ohio that "a political upheaval" impends unless congress finds some way to submit the prohibition issue to the states and settle the question.

2.—The plan of Nicholas Murray Butler, president of Columbia university, to go into the New York Republican convention girded for a final contest with Republican prohibitionists ene if it means a party split in the state.

3.—The results of Tuesday's primary elections in which such Republican prohibition advocates as Republican Hudson of Michigan and Republican Miller of Washington were defeated for renomination.

More significant than the defeat of these two however, is the apparent defeat of Republican Cramton, recognized house dry leader, who has been one of the prohibition stalwarts since he first came here in 1913.

A recount may be necessary in his race with a wet, Jesse H. Wolcott, because of the narrow margin separating the two.

## Large Bean Crop At County Home

LISBON, Sept. 11.—One and one-quarter acres of white kidney beans will be harvested at the county home farm this season. It was announced today by Supt. John P. Neil.

This is the largest crop of this item ever planted on this farm. Throughout the growing season, this patch of beans was cultivated and cared for by Edward Sutton, aged 81 an inmate at this institution.

## VOLCANO ERUPTS KILLING TWENTY

### Fifty Believed Injured In Stromboli; Farms And Villages Ruined

MESSINA, ITALY, Sept. 11.—A score of persons are reported dead and more injured in the simultaneous eruption of Stromboli volcano and an earthquake on Stromboli island, one of the Aeolian group near here.

When the eruption blew the volcanoes high into the air a great stream of lava descended upon San Bartolo and other villages.

Four destroyers and torpedo boats, loaded with provisions, tents and medical supplies, as well as companies of city firemen, with officials, have been sent from Messina to assist the victims.

The eruption threw thousands of burning rocks high into the air. These descended on little villages which dot the country-side round the base of the volcano.

A river of lava owed down upon the village of San Bartolo, destroying farms, and setting many buildings on fire.

Later official reports said that Stromboli activity returned to normal shortly afterward.

## ONE OUT, ONE IN

The strong trend toward political mortality in southern states lopped off two more familiar senatorial figures when voters in South Carolina and Louisiana went to the polls last Tuesday.

Coleman Livingston Blease, whose soft black hat is known to presidential Washington almost as well as its wearer's oratory is known on the floor of the senate, was forced to make way for a younger man, James P. Byrne, in South Carolina's run-off primary. Candidate Byrnes, whose election is assured, served 14 years in the house of representatives and ran against Senator Blease in 1924, but unsuccessfully. He was popular when serving in Washington.

In Louisiana, it was Senator Joseph E. Ransdell, who fell by the sweep of the new southern broom. Replacing him in the senate seat which he has held since 1913 will be Governor Huey P. Long. Governor Long, in contrast with Senator Ransdell, is a son of turbulence flying high on the wings of sensationalism. It is generally conceded that his presence will add nothing to the dignity or ability of the senate. Unfortunately, Senator Ransdell himself could lay claim to the addition of little except dignity, his conservatism was unique. But he was dependable—much more so than his southern neighbor, Senator Blease, who might be found voting in most any place but with the Democrats. Senator-elect Long, and a Democratic candidate is that in Louisiana, probably will be another Independent when he reaches the senate.

These changes in the personnel of the senate are significant. They represent, in one case at least, an attitude of intolerance for past senatorial actions. Senator Ransdell was beaten by Governor Long's vigor; Senator Blease was defeated by his own record and reputation. But, from what is known of the victor in South Carolina, James P. Byrnes, and the victor in Louisiana, Huey P. Long, it seems doubtful that Mr. Byrnes' popularity and ability will be able to offset Governor Long's most unsavory reputation; perhaps nothing will be gained. Perhaps a better balance will be struck later on when Senator Thomas Heflin's fate is decided.

If political mortality lops him off, then the complexion of southern politics in the senate may indeed be changed for the better.

## What Others Say

A Load Lifted From Business—The treasury department's statement that the war-inflated public debt of this country has been reduced from \$26,596,701,000 to \$16,187,636,000 will not be featured on Democratic platforms this fall for the obvious reason that this lifting of more than one-third of the war debt burden from the shoulders of business has been a Republican accomplishment.

When the Wilson administration went out of office the national debt was approximately \$34,000,000,000, an interest charge of \$1,024,024,440 for the fiscal year of 1920, which meant a tax of \$9.62 on every man, woman and child in the country. The interest charge for 1929 was \$678,330,400, or \$5.63 per capita, which represented a cut of forty-two percent from 1920 and a saving of practically four dollars per capita. Calvin Coolidge told the business organization of the government on January 28, 1929, that in the short space of seven and a half years "the public debt has been reduced \$6,667,000,000. The total saving in interest alone from this and refunding operations is \$963,000,000. Four reductions in taxes have returned to the people approximately \$2,000,000,000 a year which would have been required had the revenue act of 1918 remained in force. Two and one-half million people have been entirely relieved of all federal taxation.

Skilful financing and the elimination of the extravagance had waxes with which the last Democratic administration left the government

honeycombed have made it possible for succeeding Republican administrations to accomplish the unprecedented feat of cutting down the national debt by roughly a billion dollars a year. Any one who doubts the practical wisdom of having thus reduced the public debt and eased the burden of taxation has only to reflect how much more serious business depression in this country would be today if industry had still to carry the dead weight of the interest charges that Republican inefficiency has lopped off since it replaced Democratic ineptitude in Washington. The Democrats will not advertise this contribution by their opponents to the national welfare; but neither can they deny it. —Detroit Free Press.

## HEALTH

By Dr. Royal S. Copeland

Nature defends the body in many mysterious ways. Hippocrates said, "Nature is the curer of diseases." Since his day Science has done much to reveal some of the mysteries of the body and how to help the body overcome diseases. But even today our knowledge of the way in which the body defends itself is only fragmentary.

Resistance to disease is a strange thing. Individual resistance to disease differs widely. There are those who go through a long life and seldom have a serious illness. Others pass from one infection to another.

The causes that are most likely to lessen one's resistance to infection are many. They include insufficient or unsuitable food, lack of proper sleep and rest, spending time in a vitiated atmosphere, exposure to wet and cold, fatigue, worry and excesses of every sort.

If your body is weakened by wrong living by any or all of those factors just named, then it is that the germs of disease gain the upper hand of Nature's defenses. Those who live wisely and harden their bodies by vigorous exercise are helping build up defenses. The body can then more readily destroy the millions of germs everywhere present.

Chilling of the body has various effects on the body. It may lead to colds, pneumonia and even greater harm.

Persons are much more susceptible to draughts if they are used to still, warm air. Draughts are seldom noticed by persons in good physical tone. Those who are susceptible to them, elderly persons and infants must beware of them.

Another factor responsible for weakening naturally strong bodies is mistaken methods of feeding. The state of nutrition has a great deal to do with resistance to infection. Infection by the germs of tuberculosis is widespread. But its active development in an individual is almost always due to lowered bodily resistance through impaired nutrition.

Self-poisoning from constipation is another alarming tendency among people of today and one which weakens the entire structure and all the organs of the body. It lowers man's efficiency tremendously.

Probably the greatest natural incubator of microbes in the world is the intestinal canal. It is said that from the alimentary tract, thirty trillion bacteria are excreted daily by a normal, healthy adult. No one can afford to be neglectful of the excretory organs.

It is the person with a naturally strong body, made so by right living, who has the power to resist disease.

## The Stars Say

For Friday, September 12

A lively and eventful day may be presaged from the very interesting planetary configurations. There may be a welcome breaking away of old crystallized conditions making way for the successful launching of new projects, these involving advantageous change and cherished opportunities for energetic work. While the employment is not well fortified, yet there is promise of much recognition and assistance from friends, with personal popularity and the assurance of highly stimulated courage and abilities.

Those whose birthday it is are assured of a year of high enterprise and progress, following the removal of old obstacles and congestions. Splendid opportunities and new projects are forecast, with assistance of friends and the fine stimulus of personal energy and initiative, although discretion is enjoined in dealing with those in places of authority. A child born on this day may be finely endowed with qualities and abilities for a successful and happy career.

NEW YORK—George Lott intends to play tennis for exercise heretofore, giving up tournaments. "It's a great game for fellows in school," he explained, "but when you go to work you can't afford the time necessary to keep in form. You've got to give up one or the other."

NEW YORK, Sept. 11.—Manhattan has scores of luncheons and dinners daily to which reporters are invited and for which free table and free food are provided. They are not asked for credentials. They merely name their paper and live like a lord and a couple of dukes.

Out of this looseness was spawned a ceding army of meal grabbers who may partake of two royal meals a day with fat Havanas and perhaps cocktails, wine and high-balls without cost. Most of the fakers wear horn-rimmed glasses to furnish the "literary look."

Such "cheaters" with clear glass may be purchased for 50 cents from East Side push carts. The pseudo-press men carry sheafs of copy paper and stub pencils to complete the camouflage. If suspected and questioned they represent "a chain of Jersey papers."

Thanks to fictional floundering, reporters are invariably believed to be starved and dressed shabbily. The truth is the Fourth Estate as a class dresses better than bankers. Where were we? O. yes! A reporter like or the goods, is always sure of

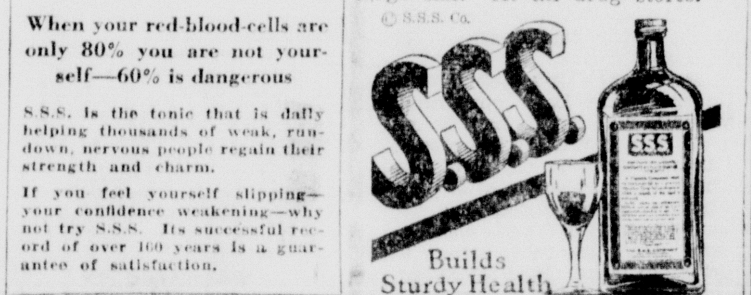

## SELF-CONFIDENCE

Bright eyes—a clear mind—belief in oneself—the power to do characterizes the red-blooded man!

IMPORTANT in this picture are the red-blood-cells! You cannot count your own red-blood-cells—that is technical! But you should know that they are the "ships" that sail in the blood and carry nourishment to all parts of the body. They fight infection and disease!

Body weakness, lack of appetite, underweight, paleness, sallow complexion, pimples and boils are symptoms of a low blood count. These may indicate that you need S.S.S.

S.S.S. restores the red-blood-cells to normal. Your appetite picks up, your whole body is strengthened, invigorated! Your skin clears up. Self-confidence returns. You owe it to yourself to try S.S.S. Get the large size. At all drug stores.

## OHIO POLITICAL LEADERS MEET IN RALLY TODAY

Opponents To Dry Law Expected To Force Issue To Front

(Continued From Page 1.)

issue in the coming political campaign. United States Senator Simon D. Fess, chairman of the national committee, virtually ignored the subject in his keynote speech at the Republican state platform convention which opened here today.

His only mention of prohibition was in summing up activities of the Hoover administration in reorganizing governmental machinery and appointment of "the highest available efficiency in the administration and enforcement of law by the appointment of a commission for the study and recommendations for better means of enforcing the 18th amendment and all other laws."

Fess also declared that prohibition is not an issue in the campaign unless the Democrats make it so.

Fess said the national administration had redeemed all pledges made in the Kansas City platform on which it went into power, two of these, in particular, the tariff law

and the farm relief legislation were stressed.

"The longest-vested policy of government aid to assist the farmer to turn his buying into a selling market was announced with a board of ample power and adequate funds to make the law effective," Senator Fess said with reference to farm relief. He added that the tariff act "gave the greatest protection to agriculture yet proposed in the form of law."

**Aids Agriculture**

Besides aiding agriculture, he said the tariff law "also gave additional protection to those industries crippled by foreign competition, most of which received Democratic votes as well as Republican. The primary purpose of the tariff, he said, "is to increase the American market and preserve it for the American producer and American labor, including the farmer."

The Senator declared that "opposition to the tariff law arising from those Americans who invest their capital in the establishment of plants in foreign countries is purely selfish and will not be excused by the American people. Granting the right of our citizens for making such investments, the people will demand that goods manufactured in these foreign plants from cheap foreign labor must not be allowed to drive out our high paid American labor."

## Mount Union College Prepares For Registration Of Students

ALLIANCE, Sept. 11.—Events scheduled for the opening of the college year at Mount Union college are rapidly taking form as administrative offices prepare to welcome freshmen next Saturday, and upper classmen on Monday. Orientation days for new students are announced today as Sept. 13 to 16. Registration and arrangement of programs Monday and Tuesday and opening of classes Wednesday morning.

Reports from the office of Dean J. B. Bowman indicate a full attendance when the term opens with dormitories and annexes nearly filled now. Some students are arriving at fraternity houses and Miller hall, dormitory for freshmen men.

**Freshmen To Come Early**  
Informal receptions for freshmen and faculty members are scheduled for Saturday evening at Elliott hall at 8 o'clock. This will be in the nature of a mixer and will give opportunity for each new student to meet faculty members and other newcomers. Miss Sara C. Stevenson, dean of women, and Mrs. Maude McCready, matron of Elliott hall, will be in charge of the reception at the hall.

Welcoming services are scheduled for 1:30 p. m. Saturday at which greetings will be extended by Dr. W. H. McMaster, president of the college, B. Y. McCready, president of alumni association, Ned Beaufort, president of the student body, and

Dr. H. K. Hilberry, pastor of the college church.  
Dr. A. B. Kitzmiller, head of the psychology department will give the tests sent out by the state department, which are given all college freshmen. These are given for comparison purposes rather than part of entrance requirements.

**Physical Examinations**

Health instructions and physical examinations will be given Monday afternoon. Dr. Perry F. King, head of the student health board, will be in charge of the examinations at the student health headquarters. Athletic director John M. Thorpe and Women's Physical director, Mrs. Mary Lapp, will give the health instructions.

Monday and Tuesday Dean Bowman's office will be busy making schedules for new registrants and adjustments and assignments of rooms. Students will meet professors in their respective rooms and get assignments.

Night and Saturday classes have been added to the college schedule and are open to any one who has a high school education who wishes to take one or more subjects. They are arranged on Tuesday and Thursday evenings and Saturday evenings.

### TWO BRIDES HONORED

Mrs. Edgar Haworth and Mrs. James O. Wilson, recent brides, shared honors at a delightful party Wednesday evening at the home of Miss Pearl Bradley, Newgarden street, with Miss Margaret Bolivar associate hostess.

The affair was a surprise for the honorees and they were showered with gifts for their new homes.

The guests included the girls employed at the J. C. Penney company store where Mrs. Haworth and Mrs. Wilson are also employed, and a few friends.

Cards were a favored pastime and prizes offered in the games were awarded Mrs. Wilson, Miss Lorene Jones, Mrs. Thomas Young and Miss Bradley.

Lunch was served at a table made beautiful in orchid and green appointments.

Mrs. Haworth before her marriage was Miss Thelma Bonner, and Mrs. Wilson was formerly Miss Gladys Redington.

### STAR CLUB

Mrs. William Weingart, Mrs. Ivan Townsend and Mrs. Jesse Miller were included in the guest list when Mrs. Ernest Weingart was hostess to Star club members Wednesday afternoon at her home, Goshen road.

Mrs. William Weingart and Miss Ellen Weingart entertained with piano solo. Fancywork was a diversion while the women visited. The hostess served lunch.

Mrs. Robert Armstrong, Benton road, has invited the members to meet with her on October 8.

### OCTETTE CLUB

Two tables of five hundred entertained at a meeting of the Octette club Wednesday evening at the home of Mrs. Jack Bell, Lisbon road. When the scores were counted Mrs. Wallace Stewart was presented the prize. Refreshments were served by the hostess.

Mrs. Clifford Zimmerman, Superior avenue, has invited the members to meet with her in two weeks.

### B. and M. P. CLUB

A decorative motif of red and white prevailed, carried out in garden flowers, at a luncheon given by Mrs. James Chamberlain and Mrs. Clyde Elder, of Beloit, at Lake Placidia, near North Georgetown, for their associates of the B. and M. P. club. Members from Salem, Alliance and Sebring were in attendance. Contests, games and visiting occupied the afternoon.

### HOMEMAKERS CLUB

A program of select readings added interest at a meeting of the Vernal Grove Homemakers club Wednesday afternoon at the home of Mrs. Josephine Murdock, Salem-Winona road. The hostess served lunch.

On October 8, the members will meet with Mrs. Russell Myers, Salem-Winona road.

### MISSIONARY SOCIETY TO MEET

Members of the Missionary society of the English Lutheran church will gather at the home of Mrs. G. B. Keister, South Union avenue at 7:30 p. m. Friday.

Mrs. Clarence Kaercher will act as assistant hostess.

### TEACHERS HOLD ROAST

The teachers of the Columbia street school held a wiener and corn roast at the home of Mrs. Viva Marshall, Franklin Square, Wednesday evening. Miss Ora Montgomery, former teacher at Columbia street, was a guest.

Mr. and Mrs. J. N. Russell, of Cleveland, are visiting Mrs. R. A. Montgomery, South Lincoln avenue. Mrs. Hannah Baillie Weeks and Miss Virginia Baillie, of Cleveland, granddaughters of Mrs. Montgomery spent Thursday here. They were accompanied home by their aunt, Mrs. Nell Kennedy.

Mrs. O. H. Bates, of Salem and her daughter, Mrs. R. C. Coleman, of Detroit, returned Wednesday from a motor trip to New Haven, Conn., Washington, Atlantic City and other points of interest in the east. Mrs. Coleman will visit her parents here until Saturday.

Charles Hald and R. L. Hutcheson spent Thursday at Washington Courthouse.

Mrs. Elizabeth Harmon and son, Harold, returned Wednesday from a trip to Atlantic City and Philadelphia.

Wallace Calladine, of Damascus, formerly of Salem, is ill of pleural pneumonia.

### PRESBYTERIAN SOCIETY

Miss Alice Haviland gave a talk on "My Impressions of Europe" at a meeting of the Missionary society of the Presbyterian church Wednesday afternoon at the church. Mrs. C. A. Haviland had the devotion.

Mrs. H. G. Percival and Mrs. O. P. Ashford told of their work among the children of the church. R. D. Walker, acting pastor, gave an instructive talk on "Youth and the Church" and he also sang a solo. A piano solo was contributed by Miss Mary Margaret McKee and Clair King offered a trumpet solo.

### FAREWELL RECEPTION

The Presbyterian church will give a reception at 7:30 p. m. Friday at the church for R. D. Walter, acting pastor, who will leave next week for Pittsburgh, where he will resume his college work.

Members of the Sunday school and the congregation are invited. Mr. Walter will preach his farewell sermon Sunday.

### Clubs Entertain At Farm Bureau Affair

When the Perry-Butler Township Farm bureau held its meeting Wednesday evening at Willow Grove grange hall, southwest of Salem, the Four-H clubs of the townships gave an entertaining program and each club also gave a demonstration of its work.

County Agent Floyd Lower was in the company and gave a short talk. It was announced that the men would be in charge of the lunch for the next meeting.

### Bon's Life In Danger As Sobs Prevent Eating

WORCESTER, MASS., Sept. 11.—Joseph Ruseckas, 12-year-old school boy at noon today had been 25 hours in a coma, marked by intermittent sobbing.

His name was on the danger list at Worcester City hospital. Ruseckas arose in a class room at the Lamartine street school yesterday to recite. Unable to remember a part of his lesson, he broke into tears. His teacher tried in vain to stop him from crying. Soon the boy became unconscious and was taken to the hospital.

Today the boy, son of Mr. and Mrs. Anthony Ruseckas, was in a weakened condition due to convulsive sobbing and inability to take nourishment. Physicians were mystified over the boy's malady.

### TODAY

(Continued From Page 1.)

other parts of the atom revolve is only another electron, acting queerly, and charged with negative electricity, whereas the revolving electrons are positively charged.

YOU MAY FIND it impossible to explain how one electron can swell up to 1,800 times the size of its brothers, which is the difference in

size between some electrons and protons. But you need not be ashamed of your ignorance. Professors that applauded Dr. Dirac's announcement admit that nine out of 10 would find his announcement too deep for them. It contains relatively, and the Quantum theory, which is saying enough.

More important to millions of women than the scientific discovery about the atom's proton is another discovery reported to the American Chemical Society yesterday by Dr. MacArthur of the University of Buffalo. He finds that one of the three sections of the pituitary gland contains a third hitherto unknown hormone, which affects "pigmentation." Thus the pituitary gland, which has much to do with mental capacity, may also control the complexion.

### Book Saves Life

(By Associated Press) JACKSON, O., Sept. 11.—Dorothy Hutton, 3, today owed her life to a thick book she was playing with yesterday. A shot gun in the hands of an uncle, Dewey Hutton, accidentally was discharged. Twenty-five pellets entered her right hand and the book was torn to pieces, thus preventing the shots from entering her body.

### Clubhouse Burned

SANDUSKY, O., Sept. 11.—Fire destroyed the Orchard Beach clubhouse, two miles west of Vermilion, last night. Damage was estimated

at between \$15,000 and \$20,000. Origin of the fire was undetermined.

What a difference a year will make—Just a year ago I was fat and 40—I was indolent and far from ambitious.

Look at me today—You won't find a pound of excess fat on me—I am vivacious—ambitious—active—I feel as good as I did at 30.

It's so easy to take off unwanted fat if you only know how—just cut out pie—pastry—ice cream—and sweet desserts and do just as I did.

Eat moderately of lean meat—fish or chicken—eat cabbage—spinach—cauliflower—sprouts or carrots—a fruit or green salad—go easy on potatoes, rice, butter, cheese, cream and sugar.

Be sure and take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast every morning.

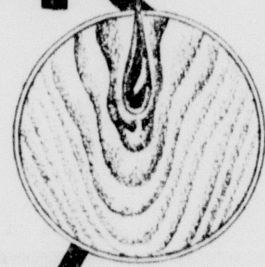

If you do this you will lose the fat that makes you lazy and sluggish—You'll have energy—ambition—your skin will be clean and clear—your eyes will sparkle—you'll gain in charm and vivaciousness.

## Ethyl

A FEW years ago "Ethyl fluid" was a laboratory experiment. Today it is a motoring necessity millions would not do without. In the past year alone its use has actually doubled.

Now Refiners Oil Company—first in the world to introduce "Ethyl Gasoline"—offers a still further improvement....

"Quick Vapor" Ethyl.

These words themselves tell the story of this gasoline. A more volatile Ethyl—an Ethyl that vaporizes more quickly.... at lower temperatures. In tests, "Quick Vapor" Ethyl not only vaporized quicker, but also was vaporized at temperatures 27 degrees below the average of ten leading Ethyl Gasolines.

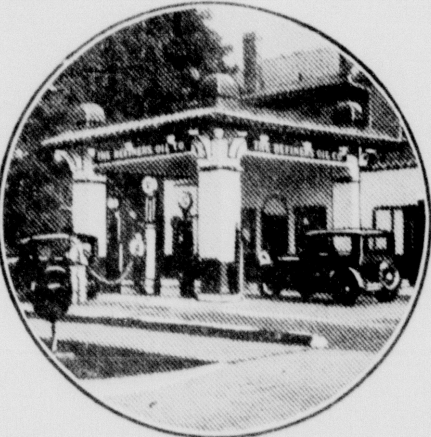

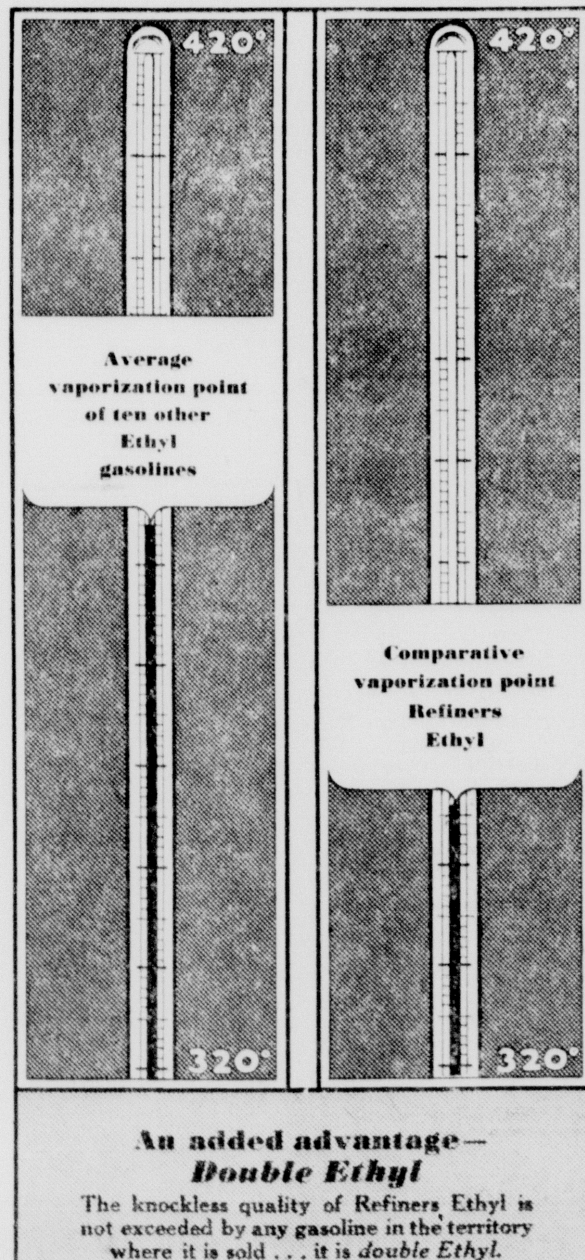

#### MADE WITH double Ethyl

In addition to its new "Quick Vapor" base Refiners Ethyl is made with a double quantity of Ethyl itself.

The advantages of this combination have never before been offered to the public. Here is supreme anti-knock smoothness—(knockless qualities unsurpassed by any gasoline on the market)—plus quicker starting, faster pick-up, more complete combustion, extra energy.

In spite of the added value of its "Quick Vapor" base and double Ethyl content, Refiners Ethyl is offered at a price no greater than other Ethyl gasolines. Fill up on Refiners Ethyl today and "double" the pleasure in every mile you drive.

### Identify Body

(By United Press)  
**POMEROY, Sept. 11.**—After officials had conducted a trip through West Virginia regarding the identification of a man slain as a robber during a gas station holdup here last Thursday, the body yesterday was identified as Vance Miller, 28, of Cumberland, Jefferson county. Miller was one of three in the hold-up. The other two escaped.

## MAN 88, FINDS LASTING RELIEF IN NEW KONJOLA

Ill for Years, Discouraged by Many Failures; New Medicine Brings Health

MR. D. L. GOSLING

"At my age, 88, I had no idea that any medicine would help me," said Mr. D. L. Gosling, National Military Home, Dayton. "I suffered for years and all the medicines and treatments I tried proved worthless. I had stomach trouble so badly that I could not eat a meal without bloating. Coffee or milk caused me to become ill. I lost weight, strength and energy."

"I took ten bottles of Konjola. That was two and one-half years ago. I have not taken Konjola for two years now but I still feel fine. I actually feel 20 years younger than I did two years ago. I have told more than 50 friends about Konjola and I shall never cease to praise the medicine that did so much for me."

As is no bar to the merits of this master medicine. When given a real test usually from six to eight weeks Konjola has made a record that would challenge belief were the actual facts not known and verified. Konjola is sold in Salem, Ohio, at J. H. Lease Drug Co., three stores, and by all the best druggists in all towns throughout this entire section.—Adv.

## PROPOSES LAW TO SAFEGUARD CITY EXPANSION

### Ohio Municipal League To Support Legislation On Annexation

(Continued From Page 1.)

that the first method be repealed at the next session of the legislature.

"Ohio laws at present permit two methods of incorporation," Mr. Mack's letter points out. "Certain sections of the general code authorize the incorporation of any territory into a village by providing that if a petition signed by not less than thirty electors residing in such territory be filed with the township trustees, the question of incorporation must be voted upon at the next general election, and if a majority of such electors voted favorably, the trustees declare such territory incorporated."

"Other sections of the General code provide that any territory may be incorporated into a village by application of thirty electors to the county commissioners and upon hearing, if the commissioners are favorable, such territory is thereupon incorporated."

**Asks Close Study**  
 "It will be observed, therefore, that any territory, no matter how small or how closely situated to a large city, may be incorporated under our present laws and this condition, in my opinion, calls for close scrutiny on the part of our municipalities."

"You are no doubt familiar with the fact that the city of Cleveland has been cursed with the incorporation of small communities and is more or less surrounded by incorporated villages which curb the growth and expansion of that city. Cleveland in many instances has grown out and around these incorporated communities and completely hemmed them in."

"Other cities of Ohio have become conscious of this same problem. Communities failing in a first attempt to incorporate through the disapproval of county commissioners have immediately turned around and availed themselves of the township trustees method of incorporation. In other cases, small communities or allotments directly in the path of a city's growth, are seeking incorporation and to counteract such movements affected cities, in order to protect themselves and keep territory open for expansion, have concurrently applied to county commissioners for the right of annexation. Bitter fights have thus been precipitated and in most cases the problem has come to an impasse."

"If county commissioners refused the city the right to annex contiguous communities or give such communities the right to incorporate or leave them free to hold an election after petitioning township trustees, irreparable injury will be done to the future growth of the cities."

### Laws Too Liberal

"It is submitted that the methods of incorporation for small communities now provided by the laws of Ohio are entirely too liberal. Although such methods were undoubtedly proper and justified during the period of Ohio's early growth they are not warranted by conditions existing today. Ohio is one of the older states of the union and its centers of population are more or less fixed and are likely to remain as they are now. These cities have been largely responsible for the fact that Ohio ranks fourth among the states of the union in population and they are directly responsible for the great industrial growth and development of this state. In our cities are found the school systems, hospitals, medical centers, libraries, newspapers, banks, mercantile establishments, parks, playgrounds, public auditoriums and scientific, educational and social centers of which the state of Ohio is justly proud."

"In view of the tremendous investment at stake in our cities, not only in dollars but in human progress, it is wise to permit small groups to obstruct and defeat an orderly program of extension and development of our cities? Should the welfare and interests of the hundreds of thousands of citizens living in our municipalities be fettered and harassed by small groups living adjacent to such municipalities, which groups, in most instances, are receiving all the benefits and obtaining most of the advantages of these living within the corporate limits of such municipalities? Private business and enterprises of like size and proportion would not tolerate such conditions for one moment. It is only the field of government that such absurdities are permitted to exist."

### Proposes Repeal

"It is proposed therefore that the sections which give permission for incorporation applications to township trustees be repealed by the next legislature, leaving application to the county commissioners as the only method of incorporation in this state. In order to properly protect and safeguard this method of incorporation in the interest of the great majority of people in Ohio it is proposed that amendments be introduced to provide that county commissioners shall be without authority to permit the incorporation of any territory when such territory is situated within three miles of the then existing corporate limits of a city, without first obtaining the consent of the council of such city."

"It is of course conceivable that situations may arise where incorporation of small communities, although adjacent to larger communities, would be advisable, or at least not harmful, but the proposed amendment takes care of this eventual inasmuch as it permits incorporation by and with the con-

sent of such larger communities. The three mile area contained in the amendment is suggested by reason of the fact that the laws of Ohio now give city planning commissions jurisdiction within a radius of three miles outside the corporate limits. In recent years city planning has come to the fore in all parts of the country and is admittedly of great benefit, and it would seem that without changing the laws of this state in accordance with the ideas herein suggested that such planning will be more or less futile and a wasted effort on the part of our cities. It will be noted that the proposed amendment does not affect the right of incorporation except in city zones and the right to incorporate in all territory outside of city zones remains unimpaired."

### Of Great Importance

"Having had under observation a concrete example of the operation of the Ohio statutes as they now exist, I am convinced that this matter is of pressing importance to the municipalities of the state of Ohio and should be given serious consideration by our committee. Some method should be worked out to protect and safeguard the logical expansion and orderly growth of our cities."

The legislative committee of the Ohio mutual league will meet in October in Columbus to discuss this proposal. Members of the committee, other than City Solicitor Mack and Mayor McDonald, are: G. Lloyd Weil, mayor of Akron; C. A. Weigand, mayor of Lakewood; and L. Don Jones, mayor of Marion. The league has called a general meeting to be held in Cleveland in November.

## FARMER SHOTS BROTHER, SELF

### New Lexington Resident Murders Relative When Wife Leaves Home

**NEW LEXINGTON, Sept. 11.**—Samuel Gross, 42, farmer of six miles south of here, shot and killed his brother, Benjamin Gross, 40, late last night. It was learned today. He then committed suicide.

The double killing occurred at Benjamin Gross' home.

The shooting was said to have been due to a domestic quarrel between Samuel and his second wife, Mrs. Lulu Gross.

Both the wife and the mother of the two dead men witnessed the tragedy. It was reported that Mrs. Gross, wife of the killer, had left her husband and gone to live with Benjamin and his mother on a nearby farm.

Samuel is said to have appeared at the dwelling late at night, bearing a shotgun which he turned on his brother. The charge tore through Benjamin's body. He died instantly.

Samuel then shot himself through the head.

## COMMITTED TO COUNTY PRISON

### Charge Of Contempt Of Court Results In Jailing Of Man

**LISBON, Sept. 11.**—After having been ordered four times to show cause why he should not be punished for contempt of court, Harold E. Fugh failed to show cause when taken before the court, and has been committed to the county jail until he complies with the order or he has been otherwise legally discharged.

Myrtle I. Fugh filed an alimony action against Jugh July 6, 1925, and obtained a decree. Court orders were issued compelling Fugh to continue payments to his wife. He failed to comply with the last order, was declared to be in contempt, and was then sentenced.

On the ground of extreme cruelty and upon the payment of the costs, a divorce decree has been obtained by Lois Johnson against her husband, Edmund Johnson. This action has been pending since Feb. 2, last.

Although Ray Layfield filed an action for divorce against his wife Opal Layfield, July 15, last, the court has granted the defendant the decree on the grounds of adultery, and upon payment of the costs.

A temporary restraining order has been handed down by the court against the defendant in the divorce action recently filed by Elizabeth Barber, against her husband, Wilson I. Barber, as was prayed for in the petition, and without bond.

## WIFE SUES FOR SEPARATION ON NEGLIGENCE BASIS

## Damascus Resident Files Action in Common Pleas Court

LISBON, Sept. 11 — Elizabeth Barber of Damascus has filed an action in common pleas court against her husband, Wilson I. Barber. They were married October 8, 1919 and two children are of issue.

Mrs. Barber charges her husband with habitual drunkenness for over a period of three years and gross neglect of duty.

A restraining order has been granted by the court against the defendant from interfering with his wife. The petition shows that Barber has given his wife \$76.50 during the last three months, although it is shown Barber receives \$300 monthly working as pottery packer.

On the grounds of gross neglect of duty, a decree of divorce has been obtained by Virginia Mary Nutt against her husband Ralph E. Nutt. The custody of a minor child has been awarded the plaintiff.

Cruelly was charged in the divorce petition filed by Edna Dorff against her husband Harold Dorff. The plaintiff has obtained a decree on this ground. The plaintiff has been restored to her maiden name, Edna Paxton.

Mary K. Blythe has obtained a divorce decree against her husband Lawrence W. Blythe on the grounds of gross neglect of duty. The custody of a minor child has been awarded the plaintiff.

### Movie Star

Joan Crawford, star of the hit, "Untamed" plays in "Montana Moon" at the State, starting tonight.

Two "much talked of" productions, "Montana Moon," featuring Joan Crawford, at the State, and "Condemned," presenting the popular actor, Ronald Colman, at the Grand, are booked for the remainder of the week beginning tonight.

### AT THE GRAND

#### "Condemned"

"Condemned!" is adapted from the best selling novel of a year ago, "Condemned to Devil's Island," by Blair Niles, internationally famous woman writer on racial and sociological geography. The adaptation was done by none other than Sidney Howard, one of the most prominent of the younger generation of American playwrights winner of the Pulitzer prize some years ago with his play, "They Knew What They Wanted." Mrs. Niles worked directly with Mr. Howard on the adaptation and came away from Hollywood completely convinced that every movie does not spoil the book it is taken from.

"Condemned to Devil's Island" is universally acknowledged to be Mrs. Niles' masterpiece, being a tremendously vivid picture of the life of the thousands of convicts in the French penal colonies off the coast of South America. Surrounded by shark-infested seas and fever-bounded swamps so that escape is impossible, filled with the incorrigible drags of Europe sent away from France to a living death in the tropics, completely isolated from the outside world, Devil's Island, has long been an international byword for the most picturesque prison in the world.

### AT THE STATE

#### "Montana Moon"

Metro-Goldwyn-Mayer presents Joan Crawford in "Montana Moon," a musical romance of the west. The story is an original by Sylvia Thalberg and Frank Butler and was directed by Malcolm St. Clair. Miss Crawford's supporting cast includes John Mack Brown, Dorothy Sebastian, Ricardo Cortez, Benny Rubin, Cliff Edwards, Karl Dane and Lloyd Ingraham.

Information is that it is one of the first pictures to be filmed without the use of artificial scenery, all the exterior scenes being taken on a cattle ranch in the San Jacinto mountains, 200 miles north of Los Angeles. A large part of the extra cast was recruited from the cowboys employed on the ranch who tricks in the way of riding unruly horses, lassoing cattle, etc., are said to play an important part in the production.

### Weather Outlook

(By Associated Press)

COLUMBUS, Sept. 11.—Weather outlook for the 24-hour period beginning at 8 a. m. today: The air pressure this morning is rather irregularly distributed over the field of observation, there being a number of minor pressure centers but none of much importance. The pressure gradients are moderate in all parts of the country, the weather is somewhat unsettled over the southeastern districts and the plains states; elsewhere generally fair.

The general eastward drift of the pressure areas during the next 24 hours will be favorable to slightly warmer weather, with increasing cloudiness in this vicinity tonight and Friday, becoming unsettled Friday night.

### MIDNIGHT WALK ENDS IN DEATH

Cleveland Woman Believed Victim Of Sleep-Walking; Body Found In River In Medina

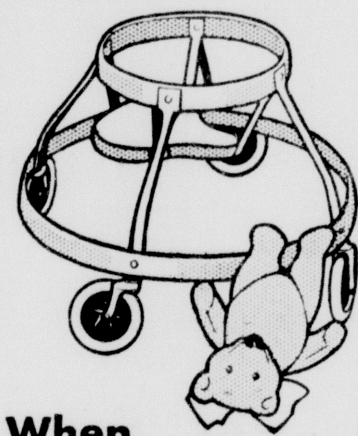

MEDINA, Sept. 11.—A midnight walk by Mrs. George Whitwell, 55, of Cleveland, ended with her death in the water of Rocky river near here last night.

Whether she was sleep-walking or awake when, clad in a night gown and bathrobe, she left a bed room at the home of her sister, Mrs. Arthur Collacu, and followed a lane to the water's edge, was undetermined.

Shortly after Mrs. Whitwell left the room, Mrs. Collacu discovered her absence and started a search. The body was found an hour later.

### When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.
